

City of Biggs

Agenda Item Staff Report for the next regular City Council Meeting: June 12, 2012 6:30PM

DATE: May 30, 2012
TO: Honorable Mayor and Members of the City Council
FROM: Steve Speights, City Engineer
SUBJECT: Supplemental Paving on Bannock St (Discussion/Action)

Would allow reconstruction of a section of deteriorated pavement on Bannock St adjacent to the Sunwest street frontage improvements at a reasonable cost.

Background:

As part of their expansion project, Sunwest is required to improve approximately 310 feet of Bannock Street with new curb, gutter, sidewalk and paving. The paving required of Sunwest will leave a strip about 5-7 feet wide of deteriorated paving between relative new paving on the north side of Bannock Street and the Sunwest paving. The Sunwest paving contractor has provided proposal to remove and replace that deteriorated strip at the same time he does the Sunwest improvements. The City would not be able to complete these repairs at a better cost because the contractor is already onsite doing the same work.

The work and payment would likely take place in next fiscal year.

Recommendation:

Approve the expenditure of \$9,000 to \$12,000 from street improvement funds for the reconstruction of a portion of Bannock Street by the Sunwest construction contractor, Duke Sherwood Contracting, Inc of Oroville. The exact amount would be determined from field measurements of the work completed.

Fiscal Impact:

Expenditure of funds included in FY12/13 budget for street repair in amount not to exceed \$12,000.
